I-MET™

I-MET™ Technology

Metatarsal Guard

I-MET, a breakthrough in metatarsal protection, *exclusively from THOROGOOD®*, features the only Internal Metatarsal Guard that's completely integrated with the steel toe cap.

PATENT PENDING TECHNOLOGY

Memory Foam Padding helps absorb the impact to the foot and instep

Flexible **I-MET**

Steel Toe ASTM F 2413-05
M/I/75/C/75/Mt/75

804-4312

Integrated: Permanently "locks" the metatarsal into place to prevent "rolling/floating" of the MetGuard.

Internal: Eliminates the potential "trip hazard" which is common with some conventional metatarsals.

Invisible: Invisible from the outside, this flexible Met provides all day protection and comfort.
